U. S. DESTROYER TORPEDOED, SUNK

Only 11 Of Crew
Of Over 145 Men
Are RescuedJacob Jones, 1,200 Ton
Vessel, Attacked Off
Cap May, New JerseyAsk Council
To Close City
Gas Stations60 Dealers Request
Ordinance Closing
Each Night At 7 P. M.

The city council was asked last night to adopt an ordinance regulating hours of operation of gasoline stations in the city. A delegation of 60 dealers appeared in the council chamber to ask for such a law, claiming that 98 percent of the men in this business were closing from 7 p. m. to 7 a. m.

A proposed ordinance was submitted for observance of the above hours and provided for penalties of \$25 to \$200 for each day's violation. The ordinance also provided for a separate offense for each day's violation. The council referred the proposal to a committee for investigation. Mayor Albert P. Hattenburg explained that there was a shortage of gasoline among council members and the legality of certain provisions of the ordinance. It was decided to refer the matter to the committee before submitting it for passage or rejection.

New Regulations
A series of regulations drawn up by the fire committee were adopted by the council. The fire chief and assistant chief were charged with enforcing them.

Hereafter autos belonging to members of the fire department are not to be parked at any time in either fire station. No mechanical work, washing, polishing or tire repairing is to be done on private cars in either station.

However, mechanical repairs, battery charging and tire repairing are to be done free of charge by fire department mechanics on autos and trucks of the street, police and sewer departments when time and material are available.

New equipment may be ordered or received for trial use unless approved by the fire committee. The bills and accounts committee in the future is not to approve purchase orders unless they also have been approved by the purchasing and fire committees.

Will Buy Locally
All materials are to be purchased locally where possible. Outgoing mail sent by the chief or his assistant is to be sent through the city clerk's office for postage to be attached. The fire committee will approve only the dues and assessments of the Illinois Firemen's association.

Four proposed amendments to ordinances were read by title only and referred to the ordinance committee for a report at the next meeting. The following informal discussion concerning a general increase in all major licenses issued by the city, including those affecting pin ball machines, bowling alleys, billiard and pool halls, liquor establishments, pawnbrokers and buses. No comment.

Musical Prodigy
Gives Concert At
College Tonight

Paul Parmelee, brilliant pianist at the age of 16, will give a concert open to the general public at 8 o'clock this evening in the auditorium of Olivet college. There is no admission charge.

When he was but seven he began writing musical compositions of a merit far beyond his years and his ability won him acclaim. At the age of eight he began making public appearances and possessed a repertoire of virtuoso performances.

In recent years he has been twice honored as guest soloist with the Chicago Symphony orchestra and his concerts have been enthusiastically received in many large cities.

Brazil And United States Sign
Three Important Agreements

Washington, March 3.—(AP)—Brazil and the United States today signed three important agreements designed to increase Brazilian production of strategic war materials and give the big South American republic a stronger defense against potential axis attacks.

The agreements provide for:

1. Formation of an Amazon basin development company that will increase production of products, principally rubber, in the vast region.
2. Additional lend-lease aid to Brazil to strengthen its navy and army.
3. earmarking \$14,000,000 for completion of the Victoria Minas railroad which taps one of the richest iron ore deposits in the world.

Drunken Man
Had Soldier's
Identification

John Powers, 311 North Grand avenue, Bradley, was the man arrested by police early Sunday morning in the 200 block on North Schuyler avenue, and fined \$25 for drunkenness.

This man was mistakenly identified as Albert Ponikvar, 159 North Grand avenue, Bradley, on records at headquarters. Ponikvar is on duty at an army camp. It was learned today that for some obscure reason, Powers carried Ponikvar's identification papers with him when he was arrested.

Powers' state of intoxication was such that he had no other means of identifying him at the time except by papers carried in his pocket. The error was discovered too late to correct it yesterday.

Catholics To
Start Youth
Center HerePlan To Hire Full
Time Director At
K. of C. Building

Plans for establishment of a community recreation center at the K. of C. hall for youths of this vicinity were outlined by Rev. Henrich, member of the organization committee, at a meeting of the Kankakee district of archdiocese union Holy Name societies Monday evening in the Knights of Columbus building.

A committee composed of representatives of various Catholic parishes in this community is being formed to draft a comprehensive program of this type. Although it will be designed primarily for Catholic youth, others will not be barred.

The entire basement floor of the K. of C. building is to be taken over. The space originally intended for development as a swimming pool will be remodeled as a gymnasium. In the front part of the structure, a small games room will be outfitted. Provision for handicraft will be made and a "hangout" lunch counter will be set up.

To Hire Director
A trained director will be hired to organize and supervise recreation activities in cooperation with the various parishes. The committee expects to hire a director within 30 days and get the center in operation within ninety months. Funds for advancing the project are already available.

In developing the initial plans, the committee has had the advice and services of L. H. Weir of Chicago, middlewest director of the National Recreation association, a non-profit non-sectarian group functioning for this express purpose.

Members of the committee who have been active in the advance work are W. A. Kraus, Serge Boudreau, John McDermott, M. L. Clancy, Albert Tetra, Victor Carls, George Ravens, Frank Ritter, John Lattig, Charles Brown, Thomas Houde and Edwonne Marcotte. Other members are to be named later.

New York Speaker
At last night's meeting of the Holy Name societies, the principal speaker was Leo Doan of New York, national chairman of the Catholic national committee. The Rev. Raymond B. Bernal, spiritual director of the society in Kankakee county, also spoke, and Erwin Grey, president of the St. Patrick society, presided.

Will Be Felt In
Every American
Home Next YearIncludes Doubling Of
Most People's Income
Tax; Part Deducted
From Paychecks

Washington, March 3.—(AP)—A \$9,610,000,000 war tax program "to be felt in every American home" was laid before congress and the nation today by Secretary Morgenthau.

The new taxes will be severe and their impact will be felt in every American home, the treasury chief told the house ways and means committee. "War is never cheap, but it is a million times cheaper to win than to lose."

The additional taxes which he proposed would be collected by the federal government in a single year prior to 1941.

As a downpayment on victory, Morgenthau asked doubling of most people's individual income tax, with rates so stiff that a single man with a \$2,000 salary would pay \$230 tax and if he made \$100,000 would only be allowed to keep about \$100,000. Part of the tax probably would be deducted from paychecks.

He also recommended higher taxes on corporations, plugging of so-called loopholes, new and higher excise taxes on 15 items such as soda pop and cigarettes, stiffer estate and gift taxes, plus \$2,000,000,000 in additional social security taxes to be specified later.

Together with existing federal taxes, the secretary said, this program would fulfill President Roosevelt's budget request for \$27,000,000,000 of taxes in the coming fiscal year, beginning July 1.

Morgenthau's Proposals
Morgenthau, in laying the program before the ways and means committee, summed up his proposals (except for social security) this way:

From increased individual income taxes \$3,200,000,000
From increased corporation taxes 3,000,000,000
From increased estate, gift taxes 330,000,000
New and increased excise taxes 1,340,000,000
From plugging loopholes \$8,610,000,000
Apparent total 1,000,000,000
Less conflicting taxes \$7,610,000,000
Net total increase \$1,000,000,000

He explained that the \$1,000,000,000 deduction was necessary in his estimates because in many cases an increase in one tax may reduce the revenue from another tax.

Morgenthau said the money was needed not only to pay for war materials, but also to check inflation and "we should, therefore, tax so as to withdraw the greatest possible volume of purchasing power at this time, when money incomes are high."

3 State Employees
Here Charged With
Political Activity

Three employees of the two state hospitals here are among a group of 11 for whom civil service commission hearings before a trial board have been set for Friday of this week at Salem, Ill. The 11 are charged with engaging in political activity in violation of civil service rules.

The group includes James W. Clinton of Louisville and Arthur W. Owens of Oklahoma, both of whom were heard as attendants at Manly hospital; and Dale Mooney of Dix an attendant at Kankakee state hospital.

The group includes James W. Clinton of Louisville and Arthur W. Owens of Oklahoma, both of whom were heard as attendants at Manly hospital; and Dale Mooney of Dix an attendant at Kankakee state hospital.

The group includes James W. Clinton of Louisville and Arthur W. Owens of Oklahoma, both of whom were heard as attendants at Manly hospital; and Dale Mooney of Dix an attendant at Kankakee state hospital.

Head Reorganized Army Units

Here are the men who head the three basic units in President Roosevelt's streamlined reorganization of the Army. Gen. Lesley J. McNair (left) was made commander of the Ground Forces; Maj. Gen.

Brehon B. Somervell (center) was given command of the Services of Supply; Lieut. Gen. Henry H. Arnold (right) heads the Air Forces, which were given a semi-autonomous status.

Release 1st New
Car Since Freezing
Order Here Dec. 16

Lester Gross, 428 Country Club drive, is the owner of the first new automobile released in Kankakee county by the county rationing board composed of Vernon McClellan, Kankakee, Broom and W. A. Kraus, Kankakee, and Wilbur King, Momence.

He purchased the car last Dec. 16 but delivery had not been made when new cars were "frozen."

The rationing board yesterday issued certificates releasing tires and tubes to the following:

Percy Hughes, Herscher, one 32 by 6 truck tire; Eugene Lambert, Bourbonnais, one 32 by 20 truck tire and one tube of the same size; Joseph Smith, Bonfield, two 550 by 16 tractor tires and two tubes of the same size; Cardos Oil company, 1225 South East avenue, two 32 by 6 truck tires and two tubes of the same size.

The rationers also released a 10 by 36 recapped tractor tire to Raymond Betourne, Bourbonnais, and a 750 by 20 recapped truck tire to Joe Pecha, 160 North Michigan avenue, Bradley.

Land on Rocky Cliffs
The shells landed far up on the rocky cliffs of the island.

Cassaba's radiogram addressed to Sam P. Gilstray, director of the NYA, said the boys of the youth camp "behaved very well" during the attack.

"We want protection at once," the telegram added.

Forestry officials confirmed the attack.

Naval authorities scouted the theory that the shells might have come from firing practice in the vicinity.

San Juan residents were inclined to view the raid as purely a nuisance attack since the island is primarily a tourist and fishing resort and has only the slightest military importance.

San Juan residents were inclined to view the raid as purely a nuisance attack since the island is primarily a tourist and fishing resort and has only the slightest military importance.

Mona Island Off
Puerto Rico Is
Shelled By foeFirst Attack On U. S.
Territory In Atlantic
Since War Started

San Juan, Puerto Rico, March 3.—(AP)—An enemy ship shelled Mona island off Puerto Rico's western coast last night, Gov. Benigno R. Canales, assistant head of the camp, reported.

It was the first shelling of United States territory on the Atlantic side since the war started.

Presumably a submarine shelled the island, almost halfway between Puerto Rico and the Dominican republic.

A national youth administration camp is on the twenty-mile square island, 50 miles west of Mayaguez.

Remberto Cassaba, assistant head of the camp, reported the attack, but said no damage or casualties resulted.

The blast occurred in a pump house where the men were working, and it was reported unofficially to have been caused by a blowout of packing on a hot oil pump.

Details of the accident were not available immediately, but a company spokesman said that two men probably were hurt seriously. Nearly all of those injured suffered from burns.

A small fire followed the explosion, but workmen extinguished it almost immediately.

Port Arthur, Tex., March 3.—(UPI)—Twenty-five men, including several plant officials, were reported injured today in a heavy explosion at the refinery of the Atlantic Refining company.

The blast occurred in a pump house where the men were working, and it was reported unofficially to have been caused by a blowout of packing on a hot oil pump.

Details of the accident were not available immediately, but a company spokesman said that two men probably were hurt seriously. Nearly all of those injured suffered from burns.

Increase In Rail
And Water Freight
Rates Authorized

Washington, March 3.—(AP)—A general six per cent increase in rail and water freight rates, with exceptions for certain basic commodities, has been authorized by the interstate commerce commission.

The increase in revenue is expected to be about \$304,000,000 a year, whereas the general 10 per cent increase asked by the carriers would have yielded about \$15,000,000 in exclusive of the \$46,000,000 from the passenger fare increase already effective.

Commodities excluded from the six per cent boost but awarded a three per cent increase included a list of agricultural items, livestock and agricultural products, and low grade iron ore. Specific increases were granted various types of coal and coke. No increase was approved on iron ore.

Twenty-Five Men
Injured In Blast
At Oil Refinery

Port Arthur, Tex., March 3.—(UPI)—Twenty-five men, including several plant officials, were reported injured today in a heavy explosion at the refinery of the Atlantic Refining company.

The blast occurred in a pump house where the men were working, and it was reported unofficially to have been caused by a blowout of packing on a hot oil pump.

Details of the accident were not available immediately, but a company spokesman said that two men probably were hurt seriously. Nearly all of those injured suffered from burns.

Draft Board
Receives 1st
Service Stars

Thirteen service stars for display for the families of Kankakee county young men in military service but only a few have arrived thus far.

Selective service boards Nos. 1 and 2 today received only 50 each, but additional shipments are expected soon. They will be given out to immediate relatives only, on a first come, first served, basis.

Provided by the state, the service stars are of silver on a red and blue background with appropriate lettering.

Hamilton Was
Nation's First
Business ManChalmers Giffin Of
Watseka Addresses
Kiwanis Club Here

How a boy born illegitimately on a tiny Caribbean island, an orphan at the age of 11, rose to become "America's first businessman" was the subject of a lecture before yesterday's Kiwanis club meeting in McBroom's cafe.

As to Alexander Hamilton's pistol duel with Aaron Burr, which resulted fatally for the former, Chalmers Giffin of Watseka, the lecturer, expressed the opinion that the subject of his biography "purposely misfired, realizing that only in his death would the beliefs that he cherished be perpetuated."

Mr. Giffin, Watseka Kiwanian and store manager, began his biographical lecture on Hamilton with the statement that "if any good can come out of troubled times, it is to bring out the latent power of the nation to the surface."

Troubled Times
So it was, he said, in the troubled days of the separation of the American colonies from the mother country that such men as Alexander Hamilton appeared.

During the 47 years of Hamilton's life, said the biographer, he was never to forget the circumstances of his birth. For instance, John Adams, master of words that burned, called him "the bastard son of a Scotch peddler."

Despite this circumstance, despite the lack of education in his youth and lack of means, Hamilton finally ranked with Washington, Jefferson and Franklin as one of the great Americans of his day.

How Hamilton at the age of 15 became the trusted and able clerk of a store on his native island, how he was offered a partnership, his journey to this country, his experience as a soldier in the revolutionary army, were told by Secretary Washington.

Then, said Mr. Giffin, Hamilton became secretary to Gen. Washington, put the commissary of the army in order and remained in the Washington household for three years. Although Washington and Hamilton parted in anger, the first president later appointed Hamilton the first secretary of the treasury.

(Continued on Page Four)

Washington, March 3.—(AP)—The navy announced today that the destroyer Jacob Jones was sunk by an enemy submarine off Cape May, N. J., before dawn on February 28 and that only 11 men of the destroyer's crew survived.

The number of those lost, including the commanding officer, Lieutenant Commander H. D. Black of Oradell, N. J., was not given but was far more than 100 since the normal war time complement of the old destroyer was around 145 officers and men.

Two torpedoes hit the Jacob Jones. The first one blew up the bow and apparently killed all personnel on the bridge as well as men sleeping in the forward living quarters of the ship. The second torpedo blew up the stern and all the depth charges.

The 11 survivors consisted of nine enlisted men from the engine room and two apprentice seamen.

Of the 11, only one man was outside the amidships section when the stern was blown up. That one was in the after engine room.

Submarine Not Sighted
In its communique reporting the sinking, the navy said that neither the enemy submarine nor the torpedo was sighted prior to the first hit.

After the first hit blew up the destroyer's bow, the submarine circled ahead of her and fired the torpedo which caused the terrible explosion of the depth charges in the stern.

The Jacob Jones was the ninth naval ship officially announced as lost so far in the war, including the Reuben James which was torpedoed last fall prior to formal U.S. declaration of war.

The others were the previous eight were three combatant ships, a mine layer and a target ship lost at Pearl Harbor; the tanker Natchez, torpedoed in unidentified waters; and the coast guard cutter Alexander Hamilton, torpedoed off Iceland.

Loss of the Alexander Hamilton with moderate casualties was announced February 21. The following day the loss of the destroyer Truxtun and the store ship Polux in a storm off Newfoundland with a total loss of 189 officers and men was reported by the navy.

Launched In 1918
The Truxtun, the Reuben James and now the Jacob Jones were all of the old world war four-stacker class.

Nipponese Land At Zamboanga, Philippines

Extend Occupation Of Southern Islands Of The Group

Washington, March 3.—(AP)—Japanese naval units are shelling several ports on the three islands of the Philippines, the war department reported today, and are landing troops from a convoy of four transports escorted by a cruiser at Zamboanga on the southwest tip of Mindanao. There was virtually no ground or air activity over General Douglas MacArthur's positions in Bataan peninsula, the department's communique said, but the Japanese apparently are attempting to extend their occupation of the southern islands of the Philippine group.

Communicate No. 132. The text of the communique, No. 132 of the war, based on reports received here up to 8:30 a. m. cwt:

1. Philippine theater: "There was practically no ground or air activity in Bataan. The enemy is landing troops at Zamboanga, on the island of Mindanao, from a convoy of four transports, escorted by a cruiser. The city is in flames. "Japanese naval units, including a cruiser and destroyers are shelling several ports on different islands of the Philippines. The points being attacked include Cebu city and Argao on the island of Cebu; Misos, Tolong, Dumaguete and Maricao on the island of Negros; and Bugo on the island of Mindanao.

"2. There is nothing to report from other areas."

Largest Island Mindanao is the largest island of the Philippine group, and the region of Davao on Mindanao has been the only sizable area occupied by the Japanese in the entire Archipelago except for the large northern island of Luzon, on which Manila is located and where MacArthur's main forces are fighting.

Mohammedano Moro tribesmen are rising by tens of thousands under a death vow, to drive the invaders from the Philippines. General MacArthur reported last night the pledge of 10,000 Moros of Lanao province, on the island of Mindanao, to wage war against the Japanese "and no mercy asked." Previously Captain Datu Gumbay Flang, a leader in Cotabato province, south of Lanao, made a similar pledge on behalf of "the 20,000 Moros enlisted as Bolomen of the United States army."

62-MILE CABLEWAY PLANNED AS TIRE-SAVER

Stockholm.—(AP)—The Boliden Mining company, operating the famous Joliden gold mine in northern Sweden, is to build a cableway, 100 kilometers (about 62 English miles) long, in order to conserve the use of tires and trucks in the transport of ore. When completed it is believed this will be the longest cableway in Europe.

Russians said their armies engaged in fierce fighting to break the ring around Leningrad (1) and said other troops were in sight of the spires of Staraya Russe (2). Keeping their announcements general in order not to divulge essential information, the Reds said other drives were in the Smolensk (3) area, toward Dniepropetrovsk (4) area, toward the Kerch peninsula (5) in the Crimea.

Japanese Claim 23 Allied Ships Sunk In Java Sea

Tokyo (From Japanese Broadcasts)—March 3.—(AP)—Imperial headquarters asserted today that 23 warships of the United Nations forces have been sunk in naval battles in the Java sea last week-end.

The announcer said six cruisers, eight destroyers, seven submarines, one gunboat and one minesweeper were sunk in the fighting between Feb. 27 and March 1. It acknowledged only that one Japanese minesweeper was sunk and one destroyer slightly damaged.

The U. S. heavy cruiser Houston, 9,650 tons, was listed among the heavy ships sent to the bottom. (In sharp contrast to the Japanese admission of slight losses, the Dutch have announced the sinking or heavy damaging of 27 warships and transports. The Dutch have acknowledged the loss of two cruisers and two destroyers, the only United Nations' losses to be announced.) The other cruisers listed by the Japanese as sunk were: Exeter, 8,390 tons, British; Perth, 6,980 tons, Australian; Hobart, 7,105 tons, Australian; De Ruyter, 6,450 tons, Dutch; Java, 6,670 tons, Dutch.

Once Red Bull, Now 'Durn Blue' Is 'Site' To See

Wilmington, Del. March 3.—(INS)—Lieut. Col. D. M. Gunn, newly-appointed judge advocate of the Second Army corps, recently received the following plaintive letter from an irate farmer:

"Dear Sir, on the 28th of November your tank was going to Lilesville and run into my bull just near Jim's Run. He wuz in my pasture. You ord to see him. He is in a site to see. I don't think he is any use hardly. Your tank tuk a peace of hide outer his belly at least a foot square. I don't think he will be any use hardly. I wish you would tell the President that he is dead fer he is gud as ded ever sense your tank struck him.

"Yours respectfully, (W. L. HARRIS). "P. S. He wuz a red bull but he stans round dese days mity durn blue." The colonel said he is attempting to decide whether a "no-good" live bull is as good as dead.

Brothers Reap Harvest In Jail For Wrong Crop

Dallas, Tex., March 3.—(INS)—Two brothers—J. D. and R. E. Thomas—were sitting mournfully in a jail cell during the day they listened to a stranger tell them on the idea of planting a field of marijuana. And they'll be there for six months.

J. D. Thomas told Federal Judge T. Whittaker Davidson: "Judge, it all started when a Mexican gave me some seeds. He said plant them seeds and gib him half the crop. He said that stuff was good for asthma."

Thomas asserted that it seemed like a good business deal to him and that he and his brother planted the crop.

De yudt was powful good an' it didn't need no howin' like cotton. In fact, Judge, we didn't chop it none."

And guess who were their first three customers. You're right: A Texas Ranger and two federal narcotic agents.

In passing sentence the judge consoling the Thomas brothers with the news that their benefactor, the Mexican seed handler, had preceded them to jail.

Train Women To Augment British Police Force

London, March 3.—(INS)—Soon to begin their duties in London and ten other cities, policewomen of the W. A. F. P.'s have just completed a rigorous course of instruction at the R. A. F. police college.

The girls have passed 13 classes instructed by R. A. F. men—and a civilian policeman. Vigorous physical drill and a special training in "unarmed combat" are the main features of the course.

Although they "don't expect to employ ju-jitsu on their fellow members of the W. A. F. P." this is also included in their training.

There is one thing they are not taught—to put on handkerchiefs.

They must never get tough. In any situation they cannot handle they must appeal to R. A. F. or civilian police.

CONDEMN 'POLITICAL RAG'

Little Rock, Ark.—(INS)—The political rag—newspapers established "entirely for political reasons," must remain "outcasts" in the publishing world as far as the Arkansas Press Association is concerned. Meeting in semi-annual convention in Little Rock, the Arkansas journalist criticized any paper which might allow its political outlook to produce "highly colored and biased" news content.

Warren Meier of Champaign was home for the week-end.

Leprosy caused 43 deaths in the U. S. in 1940.

How To Win War

Donald M. Nelson, (above) war production chief, told citizens of the nation in a radio broadcast from Washington, D. C. what they can do to help win the war.

Soldiers Taught To Use Care At Grade Crossings

Chicago, March 3.—(INS)—When anyone asks you where the world's shortest railroad right-of-way is located, tell them at the Quartermaster Corps Training Center in Fort Warren Wyo., and you won't be far wrong.

The tracks at the center are only 25 feet in length. No locomotive or baggage car ever passes over them. Brig. Gen. Joseph E. Barzyski, commanding general of the Chicago Quartermaster depot, explained their use in a recent talk before the Western Railway club.

"They perform a valuable function," he said. "All by themselves, in the middle of the prairie, they help train Army drivers, who must stop, look and listen before crossing them in a motor truck."

The white population increased faster than the non-whites only in the southern and Pacific states, comparison of the 1930 and 1940 census records reveals. In all other sections of the country, the non-whites were gaining. The census bureau says this indicates a large-scale migration of non-whites from the southern to the northern and mid-western states.
